

## About Australian Home Renovations

- Experience. We have extensive experience in the building industry. Though primarily focussed on residential renovations and painting, our supervisors have also fulfilled roles as preferred builders for large commercial clients including Red Rooster, McDonalds and Mission Australia. We can draw from this range of experience to provide you with a personalised service whilst delivering a quality outcome regardless of how big or small your project.
- Qualifications. AHR is a fully licensed company (number 15394C). We are committed to providing on-going training for all our supervisors maintaining the highest standards with the latest technologies. Our supervisors will be able to discuss and explain all aspects of your renovation keeping you updated throughout the job.
- Insurances. We have Public Liability Cover, Workers Compensation, Home Owners Warranty, Contract Insurance and Trade Insurance. Though it has not been necessary for us to make any insurance claims, it remains an important part of our service to you to cover against all risks nonetheless.
- Procedures. We follow OHS guidelines for safe work, manufacturer's guidelines for correct applications and installations and our own strict guidelines in order to provide you with the best outcome in terms of quality, cost and timing.
