

Painting

Residential

We have painters with expertise in special finishes, features and heritage work. Each painter is punctual, hard-working, honest and of course polite!

As an extra service every job, whether big or small is overseen by one of our project managers who will keep you informed of the process from start to finish. The vast majority of our work is word of mouth. So protecting our reputation has been central to our on-going success.

To look at some of the work we have carried out, click on painting in the 'Gallery' .

Body Corporate / Strata Management

Extra experience is required for this type of painting work. Not only are different types of applications and textures involved but there are also special OHS safety and equipment requirements. We can take care of all these needs keeping the stress and bother away from you.

Commercial / Industrial

We also work hard to minimise disruption to your office hours and normal business operations. We will take the same care with your commercial premises as we do with homes. Drop sheets are used on all work and the site is tidied at the end of each day.

We are experienced in working alongside builders, architects, interior designers and colour consultants.
